Corrigendum to “Applying circular statistics can cause artefacts in the calculation of vector coding variability: A bivariate solution” [Gait Posture 65 (2018) 51–56]

Holly Stock^{a,*}, Richard van Emmerik^b, Cassie Wilson^a, Ezio Preatoni^a

^a Department for Health, University of Bath, UK

^b Department of Kinesiology, University of Massachusetts, Amherst, USA

The authors regret that Equation 5 is missing a square root and should therefore read:

$$X(t) = k \cdot \text{sqrt}(\text{svd}(\lambda(t)))$$

The results presented in the paper used the above formula and not that printed in the original article.

The authors would like to apologise for any inconvenience caused.
